

Computer Systems & Networks

The background of the image is a detailed, close-up view of a printed circuit board (PCB). The board is a deep blue color, and it is covered with a complex network of fine, yellow and orange conductive traces. These traces form various patterns, including straight lines, curves, and dense clusters. Scattered across the board are numerous small, bright blue circular lights, which appear to be LEDs or micro-lights, some of which are glowing. The overall effect is a high-tech, futuristic aesthetic. The text "Class Video" is centered over the image in a large, black, sans-serif font.
