

Computer Systems & Networks

The background of the image is a detailed, close-up view of a printed circuit board (PCB). The board is covered in a complex network of fine, yellow and orange conductive traces that form various geometric patterns, including straight lines, curves, and loops. Interspersed among these traces are numerous small, bright blue circular lights, some of which are slightly out of focus, creating a sense of depth. The overall color palette is dominated by the warm tones of the traces and the cool, vibrant blue of the lights.
